

# CABI.NET

Smart payment kiosk

---

**Make billing for  
self-service facilities  
effortless!**

# SMART. SIMPLE. AUTOMATIC.

Cabi.Net is a practical and reliable solution for quick and easy payment intended for self-service facilities such as carwashes, laundromats, public toilets etc.

It is designed as a payment kiosk with integrated software and POS device allowing the users to simply choose a service on the touchscreen and pay by credit card, or other forms of contactless payment.

## WHAT WE OFFER

An automatic payment system via self-service payment kiosk containing a POS device and a touch screen with user instructions.

## MAIN FEATURES

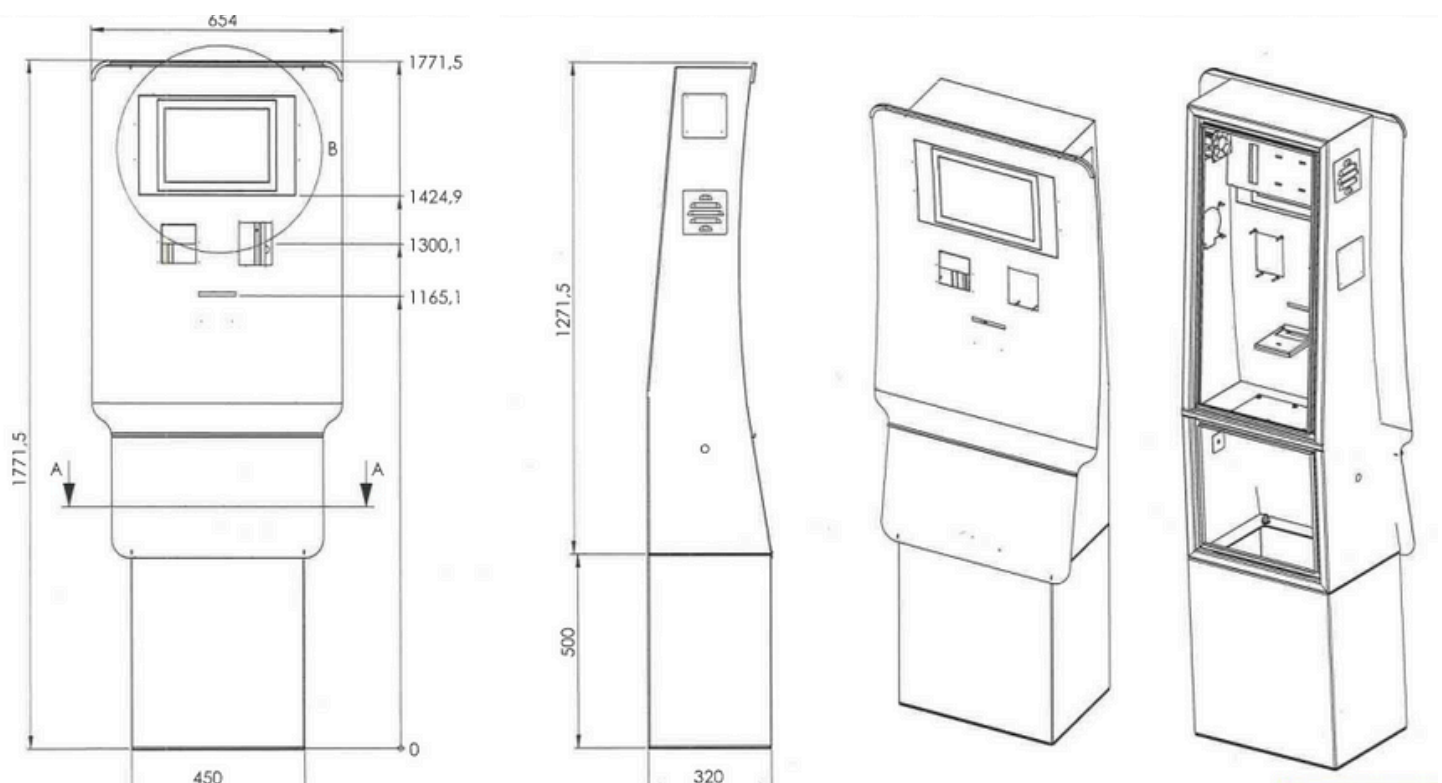

- Intuitive user interface.
- Quick service selection via touchscreen.
- Easy payment at the POS device, using credit card, PIN code or by scanning a QR code.
- The stainless steel housing and polycarbonate front cover guarantee operation in all weather conditions.

# TECHNICAL SHEET

TYPE AND MODEL	PAYMENT KIOSK - CABI.NET
HOUSING	Stainless steel, plasticized, front cover made of polycarbonate.
DIMENSIONS	W=654 H=1771,5 L=320 mm
INSTALLATION	Base plate on anchor bolts.
CONNECTION POWER	Up to 200 A
IP PROTECTION LEVEL	IP 67
WORKING TEMPERATURE	-10 do +60 C
PROGRAME SUPPORT	Independent/networked operation mode, WEB monitoring app, billing software

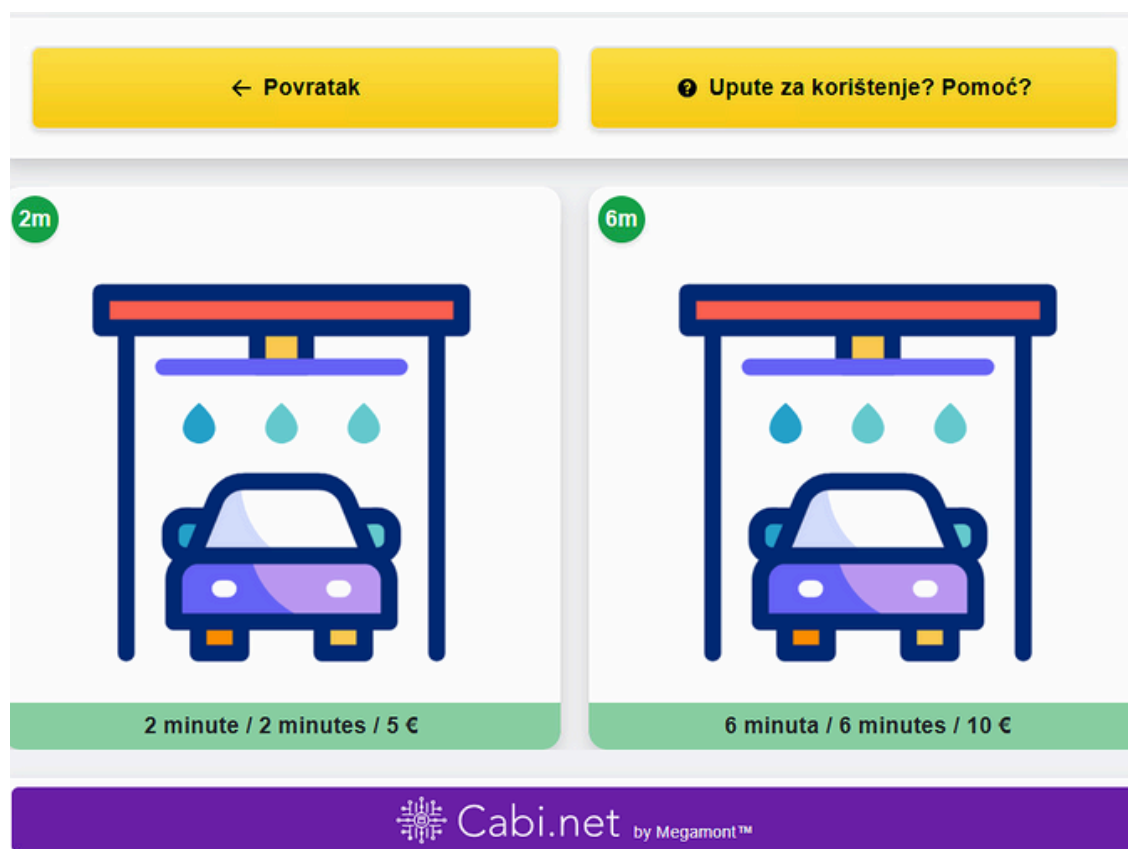

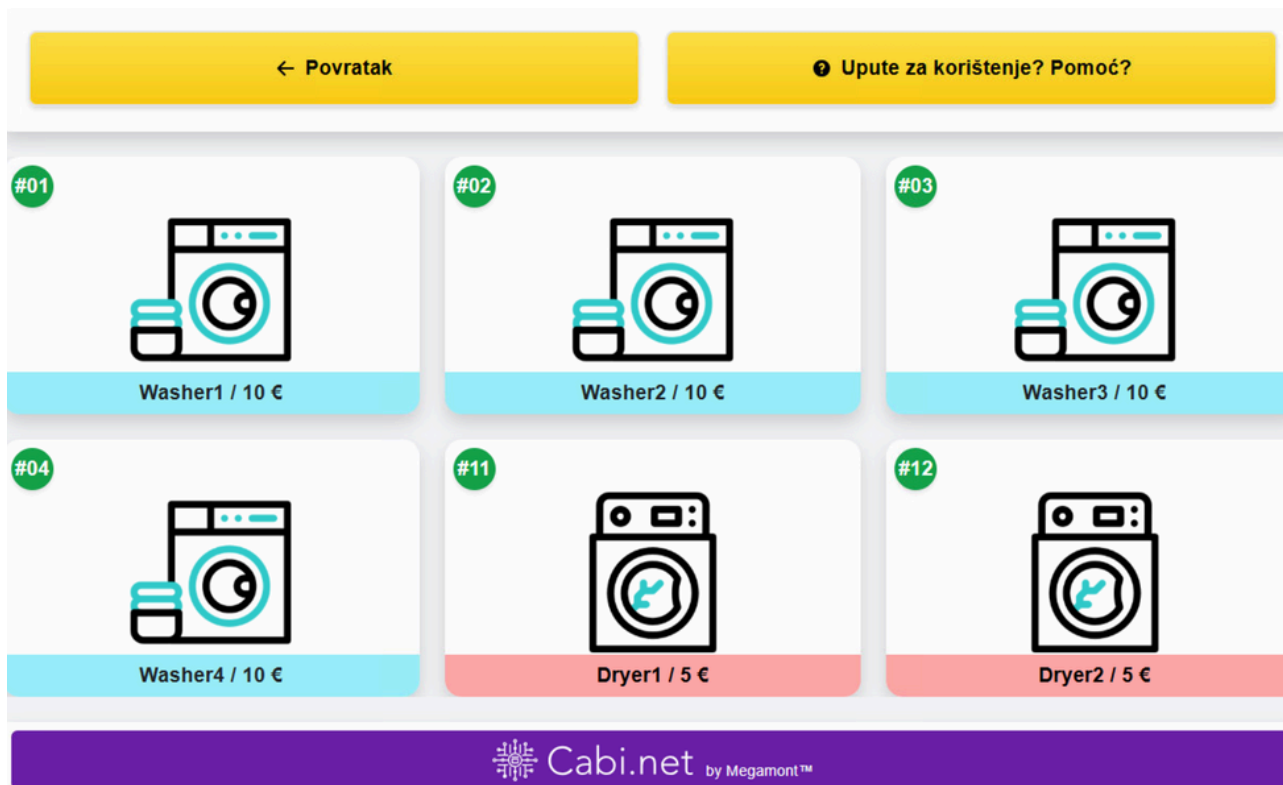

- High resistance to external conditions such as corrosion, moisture and extreme temperatures.
- Modular design: the cabinet can be adapted to the specific customer needs and budget.

# SOFTWARE

## 1. Select a service

On the touch screen, select the washer or dryer/ carwash you intend to use. Each appliance is clearly marked with a number or location.

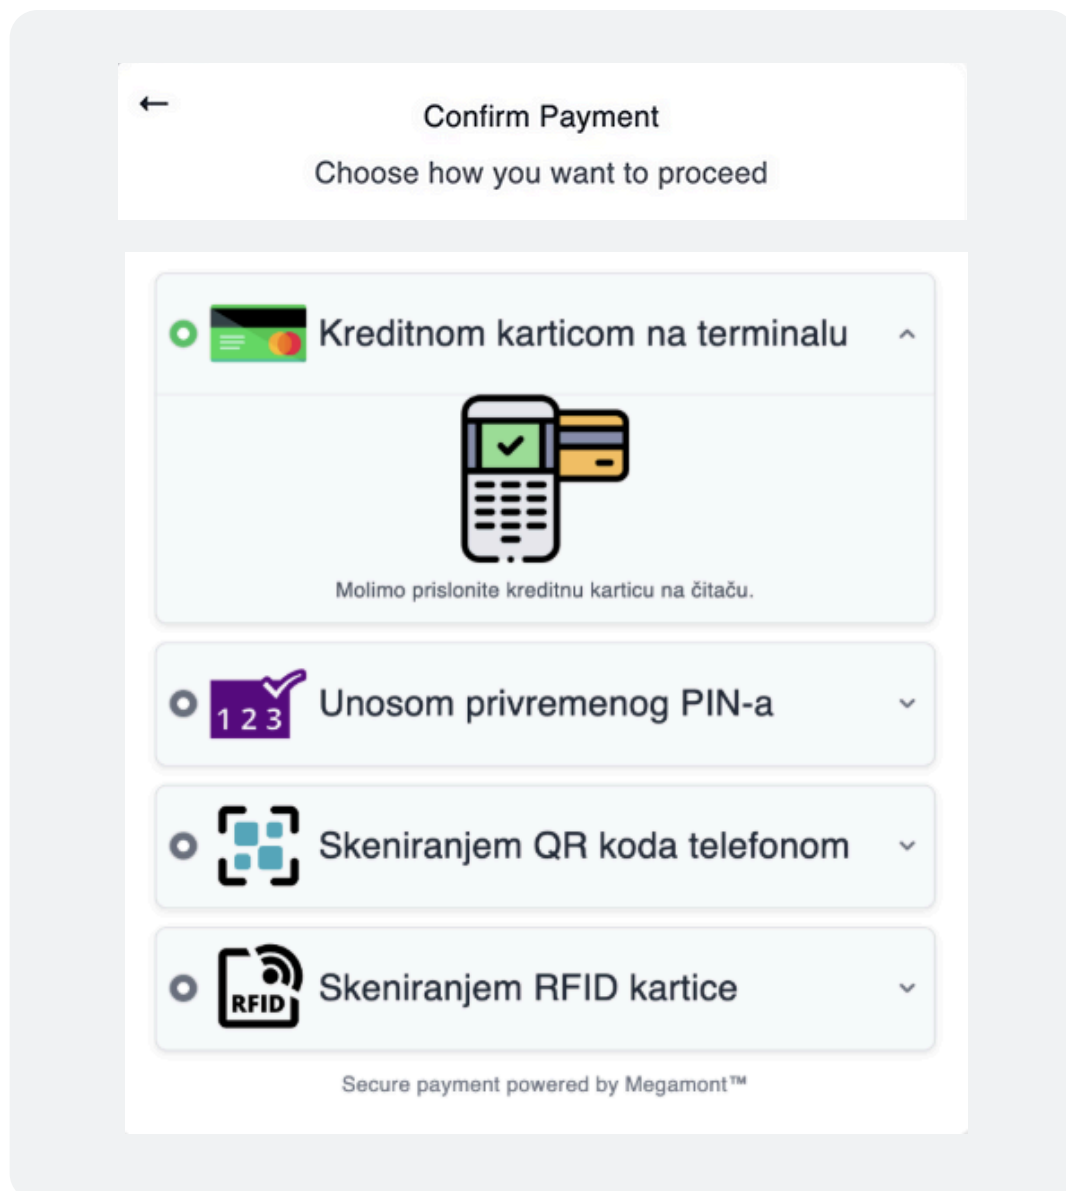

## 2. Payment

The amount is immediately displayed on the screen, and payment is made on the spot.

### We offer several payment options:

- Credit card payment via POS device.
- Payment with a PIN issued by the reception.
- By scanning the QR code with your phone.
- By scanning the RFID card.

## 3. Start of service

After the amount has been paid, the use of service begins.

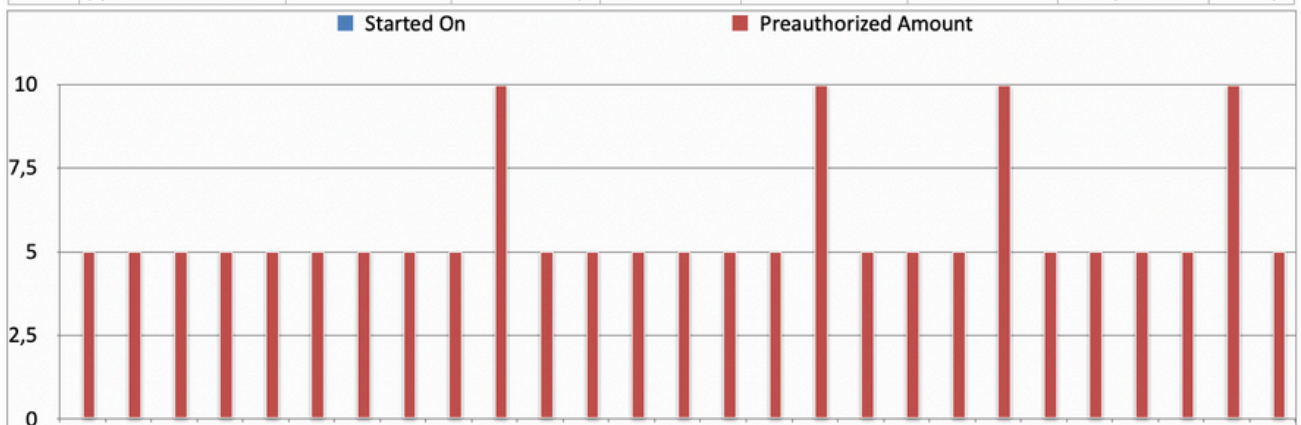

# DAILY REPORTS

Through daily traffic reports, the application enables transparent insight into daily/monthly revenue, and thus allows better planning.

In addition, we offer the possibility of simple integration with accounting programs.
